solution for this problem glittering at the horizon of Flash development: two new methods for
It s the most farthest away thing from a classic programming paradigm and it s everything I never wanted to touch since I learned programming.

Flash platform (as stupid as this may seem)? In that case I guess for me

caused a great uproar in the Flash community and in part in the wider technology

This is all a very sad state of affairs! whoever implemented (unplemented suits better here) the new sound API was either not given any time to finish it, or had absolutely no sense or concept on how to do this right.

Collateral damage doesn t seem to matter for them.

You don t get this with HTML5, nor with any other platform.

In truth this obviously means that an MP3 file can be streamed in with this method and it s audio played back only IF it s played right after a call to the method.
