Clicking the contact the administrators link will result in the following adequately useless page: Find any admin link there? Right, me neither.

But it s easy to see where Adobe is heading with this.

The underlying operating system.

use Sound.load() but in the case of Tetragon MP3 files need to be loaded as

Flash and in particular AIR provided everything I ever wanted for game development, sans hardware 3D but we got that recently, too.

programming, it made me learn OOP, then it made me learn to hate the Spaghetti

But enter iOS where it s strictly forbidden to execute any non-native scripts and the whole idea falls apart as not even the creation of an in-memory SWF structure is allowed there, you will simply get an exception thrown and end up with no sound in your application.

For one, this is because with this we have a trac coming along with it where we can more easily track issues, bugs and feature todos.

Time will tell how Adobe progresses with the AIR platform but I hope they don t spoil that one too.

The audio data is lost! UPDATE: I have filed this bug on Adobe s new bug base! Please follow the link and vote for it! <https://bugbase.adobe.com/index.cfm?event=bug&id=3072682> So either the new sound API is completely bugged or way too limited to make good use of it.
