The only way to load MP3 files directly with AS3 so far has been to

I learned to love ActionScript's clean and typed syntax and its compact distribution form as compiled and compressed binaries.

For the last ten years I have been a Flash developer, Flash made me learn

This works fine on desktop- and on Android builds.

A quick info on the development state of the engine in case you're wondering why it's so quiet over on the engine's GitHub repository. Do not worry! The engine is under constant development, however the dev build is for the time being under private hosting.

AIR is extremely attractive for game developers who want to deploy to the desktop and mobile platforms with the same code base and that is clearly one of Tetragon's goals.

If you would try to play the sound later it's not going to work.
