Another big deal is the Open-Sourcing of the Flex framework.

community so I think it s important to let you know where Tetragon is heading

Trying to keep the loaded audio and play it back later results in an invalid Bytearray.

it s either time to step back from this all for a while and concentrate

But have they asked the Flash programmers if we actually want to have Flash exchanged with HTML5.

With Javascript you get something that is at the level of ActionScript 1 without strong typing, loads of dynamic object access and a clutter of files that lie around openly on your server.

resource packages that are used by it s AIR builds.

But the Flex framework is a very attractive solution for building desktop and mobile apps via AIR and Adobe has added several mobile-optimized UI components to the framework just recently.
