For one, this is because with this we have a trac coming along with it where we can more easily track issues, bugs and feature todos.

programming, it made me learn OOP, then it made me learn to hate the Spaghetti

use Sound.load() but in the case of Tetragon MP3 files need to be loaded as

The audio data is lost! UPDATE: I have filed this bug on Adobe s new bug base! Please follow the link and vote for it! <https://bugbase.adobe.com/index.cfm?event=bug&id=3072682> So either the new sound API is completely bugged or way too limited to make good use of it.

The Flash platform isn t accessible enough to provide well integrated apps on the web.

But it s easy to see where Adobe is heading with this.

Clicking the contact the administrators link will result in the following adequately useless page: Find any admin link there? Right, me neither.

Adobe, keen on HTML5 like the rest of the internet committee, by now seems quite willing to throw Flash out of the window easily in exchange for jumping on the bandwagon of HTML5 hype.

There is one thing that I can guarantee you that is never going to happen: me starting to develop with HTML or Javascript.

The underlying operating system.
