about this! There is a lot of potential in the new sound API, if it AIR is extremely attractive for game developers who want to deploy to the desktop and mobile platforms with the same code base and that is clearly one of Tetragon s goals.

I don t really care whether the code files are easily accessible and can be stolen, that can be done with Flash too. so I too was looking forward to finally be able to change the audio file

This works fine on desktop- and on Android builds.

I learned to love ActionScript s clean and typed syntax and it s compact distribution form as compiled and compressed binaries.

like C#, C++, haXe or even Objective-C, maybe even Python.

OS: This one is obvious.

The problem isn t really that the mobile Flash Player was terminated, it s the loss of trust in Adobe that comes with it.

Trying to contact the admins doesn t work either.
