These resource packages contain all the asset files, which can be images, XML files, SWF files, etc.

This is how it's done here.

The open-sourcing of the Flex framework in my opinion is far more concerning than the end of the Mobile Flash Player.

Quite honestly I'm not sure what to make of this one.

Unfortunately Adobe's so called Bug and Issue Management System seems to be quite bugged by itself.

It shows all the major components that tetragon consists of.
