But enter iOS where it s strictly forbidden to execute any non-native scripts and the whole idea falls apart as not even the creation of an in-memory SWF structure is allowed there, you will simply get an exception thrown and end up with no sound in your application.

Flash and in particular AIR provided everything I ever wanted for game development, sans hardware 3D but we got that recently, too.

The underlying operating system.

Time will tell how Adobe progresses with the AIR platform but I hope they don t spoil that one too.

Clicking the contact the administrators link will result in the following adequately useless page: Find any admin link there? Right, me neither.

But it s easy to see where Adobe is heading with this.

I just don t like the awkwardness and fragmentation of HTML5 s and Javascript s nature.
