AIR is extremely attractive for game developers who want to deploy to the desktop and mobile platforms with the same code base and that is clearly one of Tetragon s goals.

This works fine on desktop- and on Android builds.

about this! There is a lot of potential in the new sound API, if it

I learned to love ActionScript s clean and typed syntax and it s compact distribution form as compiled and compressed binaries.

OS: This one is obvious.

I don t really care whether the code files are easily accessible and can be stolen, that can be done with Flash too.

Trying to contact the admins doesn t work either.

so I too was looking forward to finally be able to change the audio file

The Desktop Flash Player is still with us and hopefully for quite a while longer.

like C#, C++, haXe or even Objective-C, maybe even Python.
