With Javascript you get something that is at the level of ActionScript 1 without strong typing, loads of dynamic object access and a clutter of files that lie around openly on your server.

community so I think it s important to let you know where Tetragon is heading

Seems it wasn t even tested properly.

Another big deal is the Open-Sourcing of the Flex framework.

Neither does it seem to matter for their CEOs and marketing managers that JS and HTML is one giant jumble of incoherent, unoptimized mess that lacks any OOP structure and that no decent game developer on earth wants to code with.
