Clicking the contact the administrators link will result in the following adequately useless page: Find any admin link there? Right, me neither.

For one, this is because with this we have a trac coming along with it where we can more easily track issues, bugs and feature todos.

The underlying operating system.

The audio data is lost! UPDATE: I have filed this bug on Adobe s new bug base! Please follow the link and vote for it! <https://bugbase.adobe.com/index.cfm?event=bug&id=3072682> So either the new sound API is completely bugged or way too limited to make good use of it.

Flash and in particular AIR provided everything I ever wanted for game development, sans hardware 3D but we got that recently, too.

The Flash platform isn t accessible enough to provide well integrated apps on the web.

But enter iOS where it s strictly forbidden to execute any non-native scripts and the whole idea falls apart as not even the creation of an in-memory SWF structure is allowed there, you will simply get an exception thrown and end up with no sound in your application.
