But what if Adobe messes up completely and kills AIR and with that the whole comments As you know, Adobe dropped the Flash Player for mobile platforms last week which However with the release of Flash Player 11 and AIR 3 there was a promising Now enter HTML5 and Javascript! It s a bunch of untyped, loose and inconsistent stuff at best. Flash Player / AIR Runtime: tetragon is fully written in AS3 and so the Flash Player or AIR runtime act as a layer between engine and operating system. Instead, the reason why I love working with Flash is because of the clearness of ActionScript 3 and because it s a brilliant write-once distribute anywhere multi-platform approach with a nicely compiled release format. The disappointment was great when I sat down to implement the new sound API, in particular loadCompressedDataFromByteArray which as the (very terse) API documentation claims can be used to load MP3 files into the Sound class as byte data, just as we need it. Seems Adobe doesn t want to be bugged about bugs, haha. They are following suit with the popularity of the HTML5 dictate and want to jump on the band-wagon as quick as possible. There is one thing that I can guarantee you that is never going to happen: me starting to develop with HTML or Javascript.
