caused a great uproar in the Flash community and in part in the wider technology

You don't get this with HTML5, nor with any other platform.

Flash platform (as stupid as this may seem)? In that case I guess for me

In truth this obviously means that an MP3 file can be streamed in with this method and it's audio played back only IF it's played right after a call to the method.

solution for this problem glittering at the horizon of Flash development: two new methods for

Tetragon website moved to new domain and a quick hint regarding the development state Posted

It's the most farthest away thing from a classic programming paradigm and it's everything I never wanted to touch since I learned programming.

The signs that they are giving are quite clear.

This is all a very sad state of affairs! whoever implemented (unimplemented suits better here) the new sound API was either not given any time to finish it, or had absolutely no sense or concept on how to do this right.

It's strengths are clearly defined in other areas.
