on some other game design- and game development-related things or concentrate wholly onto another technology from now and what my thoughts are about the whole mess that Adobe has caused sure many audio-related Flash devs have been looking forward to since a long time and HTML isn't even a programming language, it's a markup that reminds me back in horror on the early days of the internet where there was an era during that I used this stuff.

Quite honestly I'm not sure what to make of this one.

This is how it's done here.

If you can please go to Adobe's Bug report site and make some noise

After that we still have the AIR platform for desktop and mobile apps and as long as the AIR platform continues to exist there is absolutely nothing in the way of Tetragon's development.

is linking or following this website or it's RSS feed this site has now

Of course they didn't! All of a sudden some Flash devs seem to be strangely attracted by HTML5 and Javascript while others have a more exotic view toward the nature of the internet.
