Another big deal is the Open-Sourcing of the Flex framework.

Trying to keep the loaded audio and play it back later results in an invalid Bytearray.

With Javascript you get something that is at the level of ActionScript 1 without strong typing, loads of dynamic object access and a clutter of files that lie around openly on your server.

But the Flex framework is a very attractive solution for building desktop and mobile apps via AIR and Adobe has added several mobile-optimized UI components to the framework just recently.
