These resource packages contain all the asset files, which can be images, XML files, SWF files, etc. The open-sourcing of the Flex framework in my opinion is far more concerning than the end of the Mobile Flash Player.

Of course they didn't! All of a sudden some Flash devs seem to be strangely attracted by HTML5 and Javascript while others have a more exotic view toward the nature of the internet.

Unfortunately Adobe's so called Bug and Issue Management System seems to be quite bugged by itself.
