We will be glad if you go back anew.

been moved to it s official URL www.tetragonengine.com so I recommend to update your bookmarks. I however have to be completely honest with you, I never will be attracted by HTML5 as a programming solution. and also MP3 files.

Check the onComplete handler in the script and you see how loadCompressedDataFromByteArray() is called and right after it sound playback is started.

Flex for the web is clearly unsuitable by now.

How will all this affect Tetragon? For now this doesn t affect the development of Tetragon at all.

I ve been trying to register there, by now with three different Email addresses but never got any confirmation Email back from them, so I can t log in.

The problem isn t really that the mobile Flash Player was terminated, it s the loss of trust in Adobe that comes with it.

Upper layers depend on lower layers, but not vice versa. What follows is a brief overview of the layers and their various components, from bottom to top.

like C#, C++, haXe or even Objective-C, maybe even Python.
