The Desktop Flash Player is still with us and hopefully for quite a while longer.

Trying to contact the admins doesn't work either.

The only way to load MP3 files directly with AS3 so far has been to

OS: This one is obvious.

For the last ten years I have been a Flash developer, Flash made me learn

I learned to love ActionScript's clean and typed syntax and its compact distribution form as compiled and compressed binaries.

A quick info on the development state of the engine in case you're wondering why it's so quiet over on the engine's GitHub repository. Do not worry! The engine is under constant development, however the dev build is for the time being under private hosting.

This works fine on desktop- and on Android builds.

If you would try to play the sound later it's not going to work.

AIR is extremely attractive for game developers who want to deploy to the desktop and mobile platforms with the same code base and that is clearly one of Tetragon's goals.
