Of course they didn t! All of a sudden some Flash devs seem to be strangely attracted by HTML5 and Javascript while others have a more exotic view toward the nature of the internet.

This is how it s done here.

These resource packages contain all the asset files, which can be images, XML files, SWF files, etc.

Quite honestly I m not sure what to make of this one.

The open-sourcing of the Flex framework in my opinion is far more concerning than the end of the Mobile Flash Player.

Unfortunately Adobe s so called Bug and Issue Management System seems to be quite bugged by itself.
