Posted by hexagonstar on December 18, 2011 2 comments As you might probably know Tetragon uses zipped resource packages that are used by it s AIR builds.

Trying to keep the loaded audio and play it back later results in an invalid Bytearray.

Another big deal is the Open-Sourcing of the Flex framework.

But the Flex framework is a very attractive solution for building desktop and mobile apps via AIR and Adobe has added several mobile-optimized UI components to the framework just recently.

Read more about it here <http://bugs.adobe.com/jira/browse/ASL-281> (and please do log in and vote for the issue, if you can!).

community so I think it s important to let you know where Tetragon is heading

it s either time to step back from this all for a while and concentrate

There s still quite a bit of work ahead to get Centauri ready so please be patient, we re working on it! Layered
