been moved to it s official URL www.tetragonengine.com so I recommend to update your bookmarks. I however have to be completely honest with you, I never will be attracted by HTML5 as a programming solution. and also MP3 files.

Check the onComplete handler in the script and you see how `loadCompressedDataFromByteArray()` is called and right after it sound playback is started.

Flex for the web is clearly unsuitable by now.

How will all this affect Tetragon? For now this doesn t affect the development of Tetragon at all.

I ve been trying to register there, by now with three different Email addresses but never got any confirmation Email back from them, so I can t log in.

The problem isn t really that the mobile Flash Player was terminated, it s the loss of trust in Adobe that comes with it.

Upper layers depend on lower layers, but not vice versa. What follows is a brief overview of the layers and their various components, from bottom to top.
