Unfortunately Adobe s so called Bug and Issue Management System seems to be quite bugged by itself. The open-sourcing of the Flex framework in my opinion is far more concerning than the end of the Mobile Flash Player.

It shows all the major components that tetragon consists of.

Flash gave me easy access to learn a professional programming language for creating games. zip files via random access, which is quite cool and something I explained here).

These resource packages contain all the asset files, which can be images, XML files, SWF files, etc.

Of course they didn t! All of a sudden some Flash devs seem to be strangely attracted by HTML5 and Javascript while others have a more exotic view toward the nature of the internet.

is linking or following this website or it s RSS feed this site has now

Neither does it seem to matter for their CEOs and marketing managers that JS and HTML is one giant jumble of incoherent, unoptimized mess that lacks any OOP structure and that no decent game developer on earth wants to code with.

Seems it wasn t even tested properly.
