Posted by hexagonstar on December 18, 2011 2 comments As you might probably know Tetragon uses zipped resource packages that are used by it s AIR builds.

Trying to keep the loaded audio and play it back later results in an invalid Bytearray.

Another big deal is the Open-Sourcing of the Flex framework.

But the Flex framework is a very attractive solution for building desktop and mobile apps via AIR and Adobe has added several mobile-optimized UI components to the framework just recently.
