tetragon: Game Development Engine Home About Downloads Documentation Tetragon Engine Official website of the tetragon game development engine The unusually useless case of loadCompressedDataFromByteArray Posted by hexagonstar on December 18, 2011 2 comments As you might probably know Tetragon uses zipped resource packages that are used by it s AIR builds.

Trying to keep the loaded audio and play it back later results in an invalid Bytearray.

Another big deal is the Open-Sourcing of the Flex framework.

But the Flex framework is a very attractive solution for building desktop and mobile apps via AIR and Adobe has added several mobile-optimized UI components to the framework just recently.

Read more about it here <http://bugs.adobe.com/jira/browse/ASL-281> (and please do log in and vote for the issue, if you can!).

community so I think it s important to let you know where Tetragon is heading

it s either time to step back from this all for a while and concentrate

There s still quite a bit of work ahead to get Centauri ready so please be patient, we re working on it! Layered Architecture Diagram Posted by hexagonstar on October 15, 2011 No comments This diagram provides an overview of the architecture layers that tetragon s runtime engine follows.
