The problem however remains: None of these technologies provide an attractive and compact multi-platform solution like the Flash platform does.
Time will tell how Adobe progresses with the AIR platform but I hope they don t spoil that one too.
Adobe s de facto monopoly claim on the Flash platform has always been a risk lurking at the horizon and now it has come close enough to bite us in the rear end.
But enter iOS where it s strictly forbidden to execute any non-native scripts and the whole idea falls apart as not even the creation of an in-memory SWF structure is allowed there, you will simply get an exception thrown and end up with no sound in your application.
Flash and in particular AIR provided everything I ever wanted for game development, sans hardware 3D but we got that recently, too.
HTML5 is taking over the RIA world and I have no problem with it.
The underlying operating system.
